Systems engineer → DevOps / SRE

10 years in infrastructure · remote · hybrid · UTC+7 · open to offers

Now: Systems engineer at a vendor of ECM/BPM platforms for large businesses · since March 2025

Looking for: DevOps / SRE in a product team; agentic automation of operations is of special interest.

FOCUS AREAS

I run production. Cloud platforms T1 Cloud, Cloud.ru, MTS Cloud; dozens of customer stands; on-call and incidents under a 99 % SLA.

I automate. Ansible, GitLab CI, IaC; Python and Bash – from scripts to internal services; releases without manual steps.

I see the whole system. Monitoring from metrics to alerts: Grafana, VictoriaMetrics, ELK, Prometheus; perimeter scanning, Russian data protection law 152-FZ.
